# Main features

**What**

Directive 2018/882/EU, commonly referred to as "DAC 6", amends the Directive on Administrative Cooperation (2011/16/EU), provides for the mandatory disclosure of information on 'potentially aggressive tax planning arrangements' and introduces automatic exchange of disclosed information between relevant tax authorities of EU member states.

**Why**

To provide tax authorities with an early warning mechanism on new risks of tax avoidance and thereby enable them to carry out audits more effectively, with the final objective of improving the functioning of the internal market by discouraging the use of aggressive cross-border tax-planning arrangements.

**Who**

Any intermediary (or a taxpayer) who has a connection with the EU.

**How**

The DAC 6 imposes mandatory reporting obligations by intermediaries or, in certain circumstances, taxpayers of cross border arrangements which meet certain “hallmarks”.

**When**

The Directive is in force since 25 June 2018, the domestic implementation was due on 31 December 2019, and domestic regimes should be effective by 1 January 2021.

Reporting obligations are due 30 days after the arrangement is made available / is ready for implementation or first steps have been made (whichever occurs first).
DAC 6 imposes mandatory reporting by intermediaries or, in certain circumstances, taxpayers, of reportable cross-border arrangements within 30 days beginning with the day on which the arrangement is made available by the intermediary to the taxpayer.

The scope of DAC 6 covers all direct and indirect taxes, with the exception of VAT, customs duties, excise taxes and social security contributions.

The information that needs to be reported is listed in the Directive and it includes, *inter alia*:

- Identification of all taxpayers and intermediaries involved
- Details of the relevant applicable hallmark(s)
- A summary of the arrangement, including a summary of relevant business activities
- The date on which the first step in implementation was or will be made
- Details of the relevant local law
- The value of the cross-border reportable arrangement
- Identification of relevant taxpayers or any other person in any Member State likely to be affected by the arrangement
Who (I)

» Reporting obligations are generally borne by the “intermediary”.

» An intermediary may be exempt from reporting if it can show that another intermediary has reported the arrangement.

» The relevant taxpayer could be responsible to report where:

  › no intermediary has been involved;
  › the intermediary is protected by legal professional privilege (“LPP”); or
  › the intermediary is resident outside the EU.

An intermediary is...

» Anyone who designs, markets, organises or makes available, implements, or manages the implementation of a reportable cross-border arrangement or anyone who helps with reportable arrangements and knows or could reasonably be expected to know that they are doing so; and

» has some connection with the EU i.e.:

  – is tax resident in, incorporated in, or governed by the laws of, the EU;
  – has a PE or branch in the EU which is connected with the provision of the relevant services; or
  – is registered with a tax, consultancy or legal professional association in the EU.
Who (II)

» Where the intermediary is liable to report to several Member States, disclosure should be made only to the Member State that features first in the list below:

› For intermediaries:
  • Where the intermediary is resident for tax purposes;
  • Where the intermediary has a PE through which services in respect of the arrangement are provided;
  • Where the intermediary is incorporated or where it is governed; or
  • Where the intermediary is registered with a professional association relating to legal, taxation or consultancy services.

› For taxpayers:
  • Where the relevant taxpayer is tax resident;
  • Where the relevant taxpayer as a PE benefiting from the arrangement;
  • Where income is received or profits generated; or
  • Where business activity is carried out.

» Disclosure only needs to be made once in respect of an arrangement. In case of a multiple reporting obligation, the relevant taxpayer shall be exempt from filing the information if he can prove, in accordance with national law, that the same information has been filed in another Member State.
"Cross-border"

An arrangement will be “cross-border” where it concerns either more than one member state or a member state and a third country where at least one of the following conditions is met:

- not all the parties are resident for tax purposes in the same jurisdiction;
- one or more parties is simultaneously resident in more than one jurisdiction;
- one or more parties carries on a business in another jurisdiction through a PE and the arrangements are part of that PE's business activities; or
- the arrangements have a tax-related impact on at least two jurisdictions.

"Reportable"

Arrangements are reportable if they fall within one of a number of “hallmarks”

A number of the hallmarks only apply if a threshold “main benefit” test is met.

The “Main Benefit Test” (“MBT”)

The test would be satisfied if it can be established that the main benefit, or one of the main benefits, which a person may reasonably expect to derive from an arrangement is the obtaining of a tax advantage.
How (II)

The DAC 6 defines a series of “hallmarks”, which are broad categories setting out particular characteristics identified as potentially indicative of tax avoidance or abuse.

<table>
<thead>
<tr>
<th>Hallmark</th>
<th>Description</th>
</tr>
</thead>
</table>
| A) Generic hallmarks linked to the MBT | • Taxpayer or participant undertakes to comply with a condition of confidentiality  
• Arrangement where intermediary’s remuneration depends on the tax advantage  
• Arrangement has standardized documentation and/or structure |
| B) Specific hallmarks linked to the MBT | • Arrangement consists in loss buying  
• Converting income into capital, gifts or other low taxed categories of income  
• Circular transactions resulting in the round-tripping of funds |
| C) Specific hallmarks related to cross-border transactions | • Certain deductible cross-border payments between associated parties*  
• Double deductions for depreciation  
• Relief from double taxation in more than one jurisdiction  
• Transfer of assets and where there is a material difference in amount being treated in consideration for the assets in those jurisdictions involved |
| D) Specific hallmarks concerning automatic exchange of information and beneficial ownership | • Arrangements which undermine reporting obligations or involve non-transparent legal or beneficial ownership |
| E) Specific hallmarks concerning transfer pricing | • Transfer pricing: Use of unilateral safe harbour rules or hard-to-value intangibles or base erosive transfers of functions |

* The MBT threshold may apply in certain cases
How (III)

Reporting

» The tax arrangement has to be disclosed 30 days after, whichever occurs first: (i) the arrangement is made available, (ii) the arrangement is ready for implementation or (iii) first steps have been made. Relevant deadlines:
  › For retroactive arrangements: until 30 August 2020
  › For ongoing arrangements: starting 1 July 2020 (i.e. first reporting deadline would be 31 July 2020)

Exchange

» The reports have to be exchanged by the tax authorities within one month of the end of the quarter in which the information was filed. First exchange is due by 31 October 2020.

Updates

» Periodic report on marketable arrangements ("update of the client list") is to be made every three months.

Use (optional)

» Each relevant taxpayer files information about use of arrangement in each of the years for which they use it.

A "marketable arrangement" is a cross-arrangement that is designed, marketed, ready for implementation or made available for implementation without a need to be substantially customised.
DAC 6: EU tax disclosure rules

**When**

- **25 June 2018**
  - DAC 6 enters into force
  - Transactions become reportable

- **25 Dec. 2019**
  - Domestic implementation

- **1 July 2020**
  - Domestic regimes are effective
  - Start of ongoing reporting obligation

- **31 Aug. 2020**
  - First reports are due for the retroactive period

- **31 Oct. 2020**
  - First exchange of information

**Retroactive effect!**

Certain time limits for filing and exchanging information on reportable cross-border arrangements have been extended following Decree no. 100 of 30 July 2020, which entails a six-month deferral due to the COVID-19 pandemic according to Directive (EU) 2020/874 of 24 June 2020.

- **1 Jan. 2021**
- **28 Feb. 2021**
- **30 Apr. 2021**
When (II)

Current State of DAC6 by Reporting Deadlines
Last update: 10 July 2020

- 6 months deferral
- 3 months deferral
- No deferral
- No decision
Additional considerations

» National laws will provide for penalties for non-compliance, which according to the Directive should be scoped in a way that is effective, proportionate and dissuasive.

» The scope of the Directive is very wide and the detail is left to local implementing law and guidance.

» According to the currently available legislation in several Member States, including public and non-public consultation drafts, it is expected that the implementation of the DAC 6 by certain local jurisdictions will go beyond the original text (e.g. Poland has included VAT to the reporting obligation and adopted certain domestic hallmarks)

» Despite Brexit, UK will implement DAC 6 legislation.
Short introduction to the WTS DAC6manager

February 2020
Short introduction to the WTS DAC6 manager

» WTS provides together with AMANA the **WTS DAC6 manager** that supports clients in fulfilling their regulatory obligations under EU DAC6 with a “guided questionnaire”

» The **WTS DAC6 manager** includes specific “guided questions” for domestic laws implementing EU DAC6 customized to your needs

### Key features

- Automated interfaces to upload arrangements, questionnaires & master data
- Dynamic questionnaire guides user
- Automated reporting deadline tracking
- Support of the review and compliance process
- Automated interfaces to upload arrangements, questionnaires & master data
- Part of the Amana tool suite
- Tracking and timestamps on all activities/changes
- Synergy with shared master data usage and further connections with other Amana tools
- Submission to the authorities via interface (Elster in Germany) or output as csv as long as interface standard is not defined

### Advantages

» Automated evaluation of transaction with regard to the reporting duty

» Meet the processual challenges by a process focused software

» Realization of the compliance process via the tool

» Well-established software developer ensuring long-time support and availability

About WTS Global

With representation in over 100 countries, WTS Global has already grown to a leadership position as a global tax practice offering the full range of tax services and aspires to become the preeminent non-audit tax practice worldwide. WTS Global deliberately refrains from conducting annual audits in order to avoid any conflicts of interest and to be the long-term trusted advisor for its international clients. Clients of WTS Global include multinational companies, international mid-size companies as well as private clients and family offices.

The member firms of WTS Global are carefully selected through stringent quality reviews. They are strong local players in their home market who are united by the ambition of building a truly global practice that develops the tax leaders of the future and anticipates the new digital tax world.

WTS Global effectively combines senior tax expertise from different cultures and backgrounds and offers world-class skills in advisory, in-house, regulatory and digital, coupled with the ability to think like experienced business people in a constantly changing world.
